LETTER FROM THE CHAIRMAN

Welcome to LIGHTHOUSE!

It is with great pleasure that I present this edition of LIGHTHOUSE. So much has happened this past year, thanks to the enthusiasm of our volunteers and the loyalty of our supporters and sponsors.

The love and goodwill we have received from our well wishers have encouraged us to go global. We are now extending our projects to the African continent.

Though so much has been achieved this past year, let us not ‘rest on our laurels’.

Let’s just do what needs to be done, but with love, kindness and happiness.

Patrick San Francesco
PROFILE AND VISION

Samarpan Foundation is a charitable not-for-profit entity, established in September 2006 in New Delhi. We work to bring about a change in substandard living conditions of people and animals and to restore our environment.

Our vision is to provide global support and assistance of any kind where there is humanitarian, ecological, environmental and animal welfare need.

We are a community of outward-focused volunteers, guided by the principle of doing what needs to be done to achieve the greatest good for the greatest number.

We are working towards bringing about a global change in consciousness by promoting the values of love, peace, happiness, kindness, simplicity and clarity, and inspiring a realization that we are all members of a global family by fostering the concept of oneness.
A child belongs to all, neglecting a child is akin to neglecting YOUR child.

NEW DELHI PROJECTS

HOME: MAHARANI BAGH
MAHARANI BAGH

- We are home to 16 abused, orphaned or abandoned children, under the care of volunteers and a full-time governess.
- We have overcome one of our biggest challenges by enrolling all children into private schools. The extra tuition raised the children’s educational level so they could be admitted into age appropriate classes.
- Children are comfortable and confident conversing in English due to extra classes and through speaking English in the home.
- Our focus is on nutrition, afternoon tuition, sport, drama and arts and crafts.
- We organise regular outings, holiday programs, functions and celebrations of festivals.
- Specialized care is provided for children with special needs.
- Three students attending our Tuition Centre sat for the Class 12 Central Board of Secondary Education Examination and achieved great results.
- All students from Class 5 were well received in Class 6 in neighbouring Senior Secondary Schools.
- A decline in the number of students in age-inappropriate classes (late starters) due to our fast track program has been realised.
- Continued provision of textbooks, uniforms, stationery and schoolbags is carried out.
- Continued computer education, health care, summer and winter holiday programs, celebrations of festivals and parent-teacher meetings are offered.

NEW DELHI PROJECTS

TUITION CENTRE AND WOMEN’S EMPOWERMENT: KOTLA
KOTLA SLUM, PREMNAGAR, KOTLA MUBARAKPUR

TUITION CENTRE
• The slum is next to an underpass in South Delhi with perpetual traffic noise and pollution, no water supply or sanitation and very little living space.
• Kindergarten and afternoon tuition for 120 students is provided.
• A change in the mindset of the community and an increased appreciation of the value of education has enabled us to start a kindergarten class for 40 children aged 4 to 5. Emphasis is on fun learning: studies, dance and music. Guiding their education from this age leads to tremendous future prospects.
• Remedial tuition for students in government schools has enabled them to cope in mainstream schools.
• Nutritional snacks are provided to address malnutrition.
• Continued provision of stationery, schoolbags and winter clothing is carried out by the centre.
• Continued dance, arts and crafts, field trips and celebrations of festivals are offered.
• Regular fogging with herbal pesticides for mosquito and pest control is carried out.

EMPOWERMENT: CIRCLES OF LOVE (MANAGED BY THE INSTITUTE OF LEARNING, CULTURE AND ARTS (ILCA), AN ASSOCIATED NOT-FOR-PROFIT TRUST)
• The women are not educated and have young, malnourished children. There is no room for equipment such as a sewing machine.
• Producing fabric beads has enabled them to earn an income. They keep their materials in a large plastic box making use of the lid for a clean working space.

TUITION CENTRE: MULTANI DHANDA
NIGHT SHELTER, SADAR THANA ROAD, MULTANI DHANDA

• Their slum dwellings (juggis) were demolished at G-Point, Kali Bati Marg. For the past 3 years, the families have resided at the government shelter. Parents work for a daily wage, mostly on construction sites.
• Remedial education for 30 students is provided.
• Care is taken to ensure the students attend mainstream schools and counselling is provided.
• Picnics, field trips and celebrations have given the students exposure to the world outside the shelter and the realization that they have a future to look forward to.
• Winter clothing, stationery and school bags continue to be provided for the children.
• Students at mainstream schools have grown in confidence and are receiving awards for sport, drawing, dance, drama and poetry.

TUITION CENTRE: R. K. PURAM
EKTA VIHAR, SECTOR 6, R. K. PURAM

• Most parents hail from a Rajasthani community of drummers who perform at weddings and celebrations. Their work is seasonal. Gambling, domestic violence, loitering and peddling drugs are common.
• In this environment, many children don’t attend school and join the family’s drumming profession from a young age.
• The 27 students are either first generation learners or attend local schools and are behind in their studies.
• We encourage the students and focus on reading, writing, arithmetic, the environment, courtesy and hygiene.
Weep not for that which has been done, but for what we will allow in the future.
Goodness is not about obeying rules, praying hard or doing penance. It is about how we treat others.
If only we spent 1% of our energy on serving others selflessly, the whole world would be cared for.

• Workshops are held to sensitize policemen to animal laws in co-ordination with Humane Society International and the Animal Welfare Board of India.
• Radio programs are organised to discuss animal related issues in conjunction with animal activists and other animal welfare organizations.
Waiting for change is futile. Bring about change yourself.
Man used all his genius to invent plastics... today he uses all his genius to get rid of plastics, such is ‘progress’.

**MOSQUITO ERADICATION**

- The project was piloted at the Women’s Christian College (WCC) 20-acre campus situated adjacent to the mosquito-infested Cooum River.
- A direct result of the program’s success is the Civic Body’s willingness to implement the methodology used. We have been requested to guide the City’s mosquito-eradication program as well as being approached by private institutions and welfare associations.

---

**RURAL DEVELOPMENT AND TUITION CENTRE: KANAGI NAGAR**

What causes a tree to shed its leaves, flower and fruit? It never over eats or eats the wrong food... yet we say humans are ‘intelligent’!

CHENNAI PROJECTS

ORGANIC FARMING AND COMPOSTING
SARATHU KANAGAI NAGAR VILLAGE, PAMMADUKULAM PANCHAYAT, AMBATTUR TALUK, RED HILLS, THIRUVALLUR DISTRICT

COMPOSTING
• Simple techniques of cyclic mulching and composting of organic waste produces nutrient-rich fertilizer which fuels plant growth and restores vitality to depleted soil, producing better results than chemicals and fertilizers.

• Recycling kitchen waste into compost is free and good for home kitchen gardens and the environment.

GREEN NUTRIENTS
• Our forest tree nursery produces large volumes of vegetation waste such as tree loppings, cut branches and leaves from regular pruning, which is mulched and shredded.

• Green nutrients are produced by mixing vegetation waste, organic kitchen waste, water and a bio starter (to initiate the process of decomposition). Methane gas is produced as a result.

• The natural ‘liquid gold’ concentrate produced from this waste mixture is ready within 3-4 weeks for multipurpose use for vegetable plants and flowering, fruiting and forest tree saplings.

• The resultant biomass is ploughed back into the forest nursery as enriched fertilizer.

• This results in significant enhancement of growth rates and increased production of vegetables and fruit.

ORGANIC FARMING
• The mini poultry unit has the dual benefit of
  • the distribution of eggs to the underprivileged
  • the production of nitrogen-rich manure.

• Poultry manure, composted manure and green nutrients are used to fertilize our forest nursery and organic vegetables.
When you make someone happy, you light a lamp in the universe.
Let’s brighten the universe.

HOSPITAL AND MEDICAL CLINICS
BALI ISLAND, BIJAYNAGAR 9

HOSPITAL
• The area is prone to cyclones, highly neglected and impoverished with no basic facilities such as drinking water, electricity and medical care.
• The nearest 16-bed Government Primary Health Centre is in Gosaba, 2 hours away by boat. This distance proves fatal for patients, particularly snake bite and stroke victims.
• Construction of the hospital commenced on 12 February 2014 using discarded PET bottles filled with waste mud (replacing bricks) and nylon-6 fish net (replacing steel in the concrete slabs).
• This construction method promotes waste management and is extremely affordable, environment-friendly and cyclone and earthquake resistant.
• There is provision for solar and diesel generated power.
• Lack of accessibility to the site was countered by acquiring 2 ambulance speedboats and building a jetty, road and bridge.
• With an area of 7,000 sq. ft., the hospital will include:
  • Two General Wards, with 10 beds each
  • Paediatric Ward, with 6 beds
  • Intensive Care Unit (ICU), with 2 beds
  • Emergency Room
  • Isolation Ward

Urbanisation has taken us away from nature... alas! what crime has nature committed?

KASHMIR PROJECT

WOMEN’S EMPOWERMENT: SRINAGAR
(MANAGED BY HILLS AND DALES FOUNDATION, AN ASSOCIATED NOT-FOR-PROFIT SECTION 25A COMPANY)

- The primary objective of the women’s co-operative project is to create employment and empowerment for Kashmiri women whilst promoting Kashmir as a primary dairy-farming destination.

- The project will empower the women to become skilled and financially independent. Economic resurgence will enable them to affect positive social change for their families and community.
