LETTER FROM THE CHAIRMAN WELCOME TO LIGHTHOUSE!

Dear Friends,

Welcome to LIGHTHOUSE!

As we close another year of “Doing what needs to be done,” I would like to thank you all for your dedication and hard work.

Having said this, I am aware that praise and thanks is not what any of you seek.

Even though our financial balance sheet records yet another year of growth, we are not monitoring numbers and bottom lines. Our true growth and success is measured by the kindness and heart that we put into our projects. I am proud to say that in this regard, our growth has been phenomenal.

Knowledge without application is worthless, application without dedication is pointless, dedication without love is indifference.

Wishing you all Love, Peace, Happiness and Kindness.

Patrick San Francisco,
Chairman.

BENGALURU PROJECTS

ANIMAL WELFARE

The project offers:

- the rescue of abandoned animals,
- medical treatment of injured and sick animals,
- sterilisation and vaccination of homeless animals,
- the feeding of animals in poor communities.

Beneficiaries:

- 33 dogs
- 7 cats
- one calf
- over 40 marooned senior dogs at a flooded settlement

Highlights of the year:

- A donor, in celebrating her birthday in a meaningful way, paid for a meal of chicken and rice for 75 dogs in a large slum settlement, where the animals are much loved but live on scraps and often go hungry. It was an occasion of happiness for all involved.
- Approximately 40 dogs were marooned in a shelter that flooded one stormy night. The dogs were panicky and needed speedy relocation to a safe haven. Two aggressive Rottweilers were muzzled and safely driven 80 kilometres to their destination. After the water receded, volunteers cleaned and fumigated the space before the dogs were returned.

Events of the past year:

- A census of all 90 dogs in the Jai Bheem Nagar settlement was conducted. The resident dogs were profiled to determine what steps needed to be taken for their welfare. A 2-month feeding programme helped volunteers to befriend the dogs and then 12 animals were neutered free of cost at another NGO facility. After this, all the dogs were safely returned to the settlement.

- A court citation initiated and filed by the director, Samarpan Homes. This PIL (Public interest litigation) states that authorized persons of CCIs (Child Care Institutions) have the right to sign a vakalatnama (similar to Power of Attorney) for a child in order to legally represent the child. Before this significant ruling, it was mandated that only parents or blood relatives had the legal right to do so, even in cases of incest. This is a first-of-its-kind judgement which will be quoted for all future cases pertaining to childcare institutions.

- Awards and Recognition:
All girls in the Samarpan Home for Girls are receiving mainstream formal education in recognized private English medium schools. And of the 21 children who are studying at these English medium schools, all have received awards and recognition in areas of either
 - the Science, Maths or English Olympiad (a national level aptitude test),
 - in sports,
 - in Sanskrit recitation competitions,
 - or in the performing arts,boosting their morale and confidence as each child discovers his or her inherent strength and talent.
- Financial Independence for Girls in the Aftercare Samarpan Aftercare for Girls – after completing vocational and literacy training, both girls have found permanent jobs with two other NGOs, thereby ensuring they continue to flourish in a safe and secure environment while having financial independence and continued emotional, mental and medical care from Samarpan Homes. One of the girls was severely diabetic, which affected her eyes. Cataract surgery was performed in both her eyes, enabling her to pursue her vocational training and subsequently obtain a job. Also, her diabetes is now well managed and maintained. The two girls currently still residing at the home are undergoing on-site training and are earning a stipend for the same. The home continues to support them financially, emotionally and mentally, so the stipend they earn is being accumulated in their bank accounts, offering them a financial cushion when they eventually become independent.
